Vispubs.com

A Visualization Publications Repository

Devin Lange

Quickly find visualization publications from **VIS**, **EuroVis**, and **CHI**.* *CHI Papers have been filtered based on common visualization terms. Check vispubs.com for up to date list of publication sources.

Works well on **mobile**.

Includes a **dark mode**.

Keyword Search

on **Title**, **Authors**, and **Abstract**. Supports **regex** and **case matching**.

Filter

The filter panel includes options to filter papers by **Year**, **Venue**, **Awards**, and **Resources** available. As filters change, the histogram and underline bar charts update.

Export

Export filtered publication list for detailed analysis as a convenient way to **start a literature review**. Without filters this will **export the full dataset**.
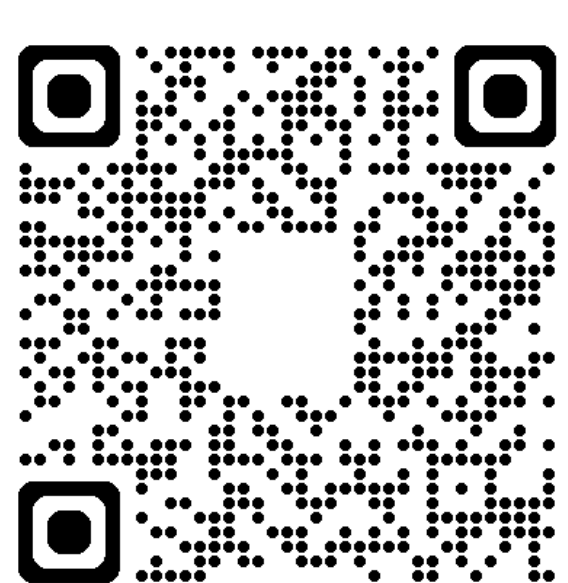

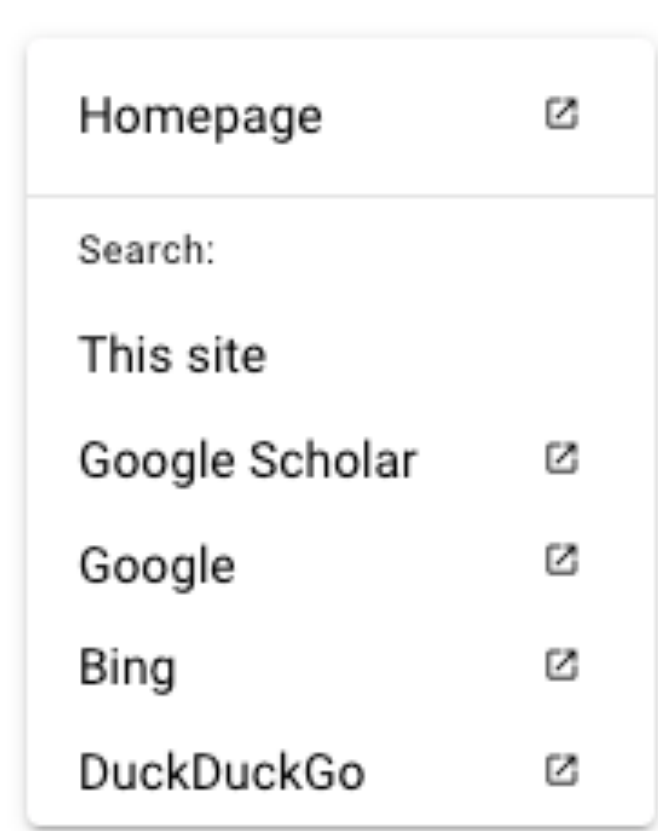

Resources

Quickly access resources related to the publication, such as project **websites**, **videos**, **code**, and **data**.

Add resources for a publication by selecting the ⊕ Add Resources button and submitting the information on GitHub.

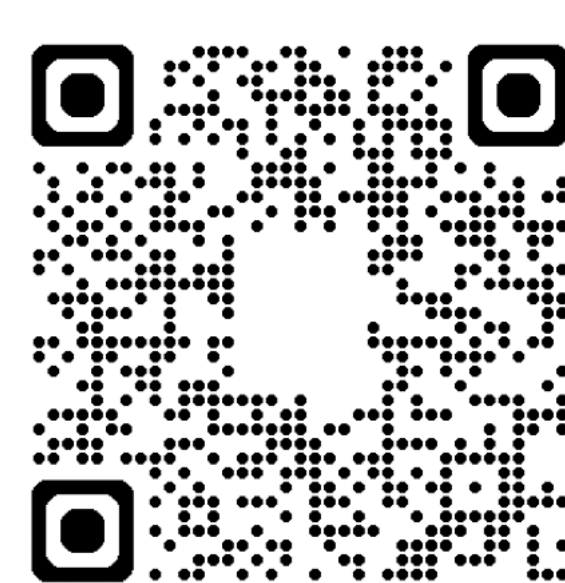

Quick Links

Selecting the paper or author provides links to the **publication page**, **author homepage**, and options to search other places like **Google Scholar**.

Add your homepage by submitting a single-question form from the quick links.
